

Amhil Enterprises - Plastics Processing Group of Wentworth Technologies

Announces the Opening of New Thermoforming Plant in Poland and Brings to Our Customers "the Best Value" Contract Manufacturing in a Low-Cost Central European Location.

Mississauga, Ontario, Canada, February 12, 2002 - Amhil Enterprises, the world's No.1 independent manufacturer of plastic disposable lids announces opening of its new thermoforming plant in Europe. Amhil Europa is located in the Special Economic Zone in Zarnowiec, Poland.

This low cost, no tax zone on the Baltic coast offers efficient distribution for Europe and around the world. The plant started its manufacturing operations in December 2001 and due to the enthusiastic response from our customers is going to double its capacity as of April 2002. We welcome your inquiries for deliveries and also offer strategic partnership arrangements for large purchasers.

Amhil provides "Best Value" Contract Plastic Manufacturing; including:

- Full service, from design to production
- Innovation, the use of our all thirteen (13) patents.
- Fast To Market ®"FTM" turnaround from design to production.
- Low cost supply

Amhil Europa, is well positioned to deliver best value to our customers, with:

- A Low Cost Manufacturing Location: in the special economic zone, with no taxes
- Efficient logistics: Amhil Europa is located 40 Km from a major container port at Gdynia and 200 km from the German border.
- Cutting Edge Latest Equipment: Our new plant is equipped with the cutting edge latest equipment for high quality and efficient product manufacturing. All production lines are fully in-line for the highest efficiency.
