Wentworth Mold Inc. and Plastic Technologies Inc. Form Strategic Alliance
to Expand Fast-to-Market® Mold Program

Wentworth Mold, Inc. (Hamilton, ON), a member of the Packaging Mold Group of Wentworth Technologies Co. Ltd, is pleased to announce that it has entered into an alliance with Plastic Technologies, Inc. (Holland, OH) wherein PTI will expand its use of Wentworth's Fast To Market® blow mold program to additional blow molding machines in its U.S. facility and at its European subsidiary, PTI-Europe (Yverdon, Switzerland). Wentworth will provide to PTI additional FTM® mold carriers and Wentworth will produce prototype FTM® molds for PTI at both its Hamilton, ON and its Nottinghamshire, UK site. In addition, as a strategic partner, PTI will have full access to Wentworth's real time, on-line job quoting service (to be launched shortly), so that PTI can reduce the time spent in the initial quotation phase of a project, thus reducing the total package development time for its customers.

Wentworth will utilize PTI's extensive prototyping capabilities on both continents to test prototype and lead cavity molds it makes, in order to better serve its customers' needs.

PTI recently completed an extensive package development project for one of its key customers where Wentworth supplied eight FTM® blow molds to PTI with the average delivery time per mold of four days, from the receipt of the 3D CAD files from PTI. One goal of the alliance is to reduce the mold delivery time even further by streamlining the file transfer and mold engineering and manufacturing processes.

The Packaging Mold Group consists of Wentworth Mold Inc., Electra Form Industries Inc. and Jersey Mold Inc., and is a division of Wentworth Technologies Co. Ltd., the # 1 independent manufacturer and global leader in mold-making and related plastics processing to the packaging industry. The Wentworth Packaging Mold Group supplies PET Preform Injection Molds from single cavity FTM® stacks to 144 cavity Micropitch production molds and Blow Mold Tooling for all types of machines for PET, EBM, IBM and ISBM. Wentworth Technologies is recognized as the Best Value Supplier in its niche markets.
